Profile

Full Stack Developer with professional experience in designing, developing, and maintaining scalable web and mobile applications using Java, ReactJS, Node.js, REST APIs, MySQL, and MongoDB. Strong foundation in software engineering principles, Object-Oriented Programming, SDLC, and problem-solving. Passionate about delivering reliable software solutions, collaborating with cross-functional teams, and continuously learning modern technologies.

Technical Skills

Programming Languages: Java, JavaScript, C++

Backend: RESTful APIs

Frontend: ReactJS, HTML5, CSS3, Tailwind CSS

Databases: MySQL, MongoDB

Cloud: AWS (EC2, S3, Lambda)

Tools: Git, GitHub, Postman, VS Code

Concepts: Software Engineering, Software Design, Software Development Principles, Object-Oriented Programming, Data Structures, DBMS, Software Development Life Cycle (SDLC), Agile Development, REST APIs, Problem Solving

Soft Skills: Communication, Team Collaboration, Problem Solving, Analytical Thinking

Education

Master of Computer Applications (MCA), Pimpri Chinchwad University, Pune 2024 – 2026
CGPA: 8.4

Bachelor of Computer Applications (BCA), The New College Kolhapur 2021 – 2024
CGPA: 8.3

Experience

Full Stack Developer || VMV Tech Solutions June 2025 – Present

- Developed full-stack web applications using ReactJS, JavaScript, REST APIs, and SQL databases.
- Built reusable components and integrated backend services for scalable applications.
- Participated in SDLC activities including development, testing, debugging, and deployment.
- Optimized application performance through code improvements and troubleshooting.

Projects

TrackMyWallet || 🐙 GitHub || *Java, MySQL*

- Designed and developed a backend-driven expense management system using Java, Spring Boot, REST APIs, and MySQL.
- Designed REST APIs and implemented CRUD operations for secure expense management.
- Applied object-oriented programming principles and optimized SQL queries.

MCare – NGO Management Website || 🌐 mrudulcare.org || *ReactJS, REST APIs, JavaScript, CSS*

- Developed responsive ReactJS components using modern frontend development practices.
- Integrated REST APIs to deliver dynamic content and improve user engagement.
- Implemented responsive layouts, ensuring seamless user experience across devices.
- Collaborated in testing and deployment activities to ensure application reliability.

Festora – Cultural Event Management Platform || 🐙 GitHub || *ReactJS, Python, MongoDB, REST APIs*

- Built a full-stack event management platform using ReactJS, MongoDB, and REST APIs.
- Implemented role-based access control and dynamic event workflows.
- Developed reusable frontend components and backend integrations.

Certifications

- Introduction to Software Engineering – IBM || Introduction to Front-End Development – Meta
